**Date & Time: - 15th April 2020  
from 1:00pm to 2:00pm**

“In this one of its kind prevailing pandemic, we can only imagine that *“tomorrow can be better than today”* and innovations could help the world arrive at solutions expeditiously. With the aforementioned premise, the government and the institutions took it as a challenge and engaged in finding out the solutions not for prevention or the treatment but also countering its side effects. ”
